One Stop Sign Service From Concept To Completion

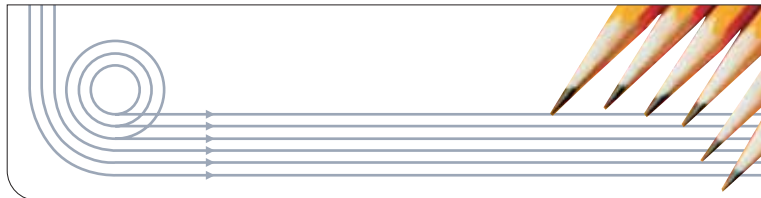

Every education facility should have clear signage to help visitors, as well as students and staff, to navigate the environment through an effective wayfinding scheme, always bearing in mind the current requirements of the Disability Discrimination Act.

Whether you need to sign a new extension, change your image or just update your existing scheme we can provide all the necessary elements to suit your needs & budget, including liaison with Architects, Building Control and the Fire Officer.

Post Mounted Signs

Electronic Signs

ELECTRONIC

SINGLE OR MULTI-LINE DISPLAYS

Accurate communication is vital to our Educational Facilities

Electronic message displays offer the perfect solution to enable you to convey your messages quickly and accurately in the education environment.

Our displays are extremely robust and designed to withstand busy environments.

These eye catching, user friendly, information boards can be used within Schools, Colleges or Universities to convey information to staff and students or alternatively sited in a window to display important notices and forthcoming events.

Whatever message you want to get across, an electronic display will provide you with an ideal solution that will last for years.

Slat & Door Signs

The Slatted concept is one of simplicity and versatility providing a total interior sign programme in one system. Slat signs, whether a single sided, double-sided suspended directory, or a complete building guide, can all be made from a small number of components. Austin Reynolds can colour match Slat and text to any colour and, of course, any font style ensuring the continuity of any sign updates or future changes.

► Slat Benefits

- Total interior sign programme in one system
- Versatile and easy to update

Glass Highlighting

There is a duty of care with regard to glass which requires that there must be manifestation at two levels on the glass; between 850 mm and 1000 mm and between 1400 mm and 1600 mm from floor level.

Our manifestation window film offers a quick, cost effective solution to the problem of accidental collision.

- ▶ **Makes glass safe**
- ▶ **Can provide screening**
- ▶ **Versatile and easy to add a stylish design element to any surrounding**

Custom Made Designs

A Frames

A Frame signs are a cost effective way to promote your message. Our range of sandwich boards and A frame signs provide a stable and durable medium for all graphics.

Anti Slip Flooring

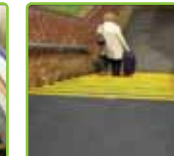

Austin Reynolds' slip resistant stair tread covers, landing covers and flat sheet are ideal to deal with the majority of staircases, walkways and anywhere where there may be a slip hazard.

The product is made from tough durable GRP, perfect for high traffic areas, and has a carbon and silicone grit top surface that ensures a secure surface underfoot.

Full nationwide installation service is available using fully qualified operatives.

Fully complies with the DDA and Building Regulation Legislation.

Speed Bumps

Recommended to reduce traffic speed to 10mph (50mm high bump) and 5mph (75mm high bump). Comes with unique 'dog bone' interconnectors to avoid loose sections.
