Gas Valve Identification

We supply everything you need

British and Din Standard Gas valve Marker plate

Reverse screen printed onto tough, clear, Polycarbonate plastic that is resistant to all weather conditions. The printing inks are UV stabilised to prevent colour fading. Being reversed printed critical information cannot wear or be removed. The plates have clear windows for variable information.

Injection molded system

Manufactured from injection molded plastic which cannot colour fade, crack, swell, shrink or corrode. Encapsulated 'T' cannot rub or wear away. The complete system includes; plastic completion cap, Aluminium post and anchor bar, universal backing plate, BS Injection molded Hydrant plate and clip in numbers, letters and blanks.

Peel off, stick on characters

A complete range of numbers, letters, arrows and blanks supplied in sheet form and printed using UV stabilised inks. Each character is applied to the rear face of the clear window and cannot be removed from the front.

The 'Clip in' number system

The Clip in number system includes numbers, letters, and blanks. All characters are permanent and encapsulated which cannot be removed from the front of the plate.

The 'No-Dig' post

Our 'No-Dig' post is manufactured from tough, durable and flexible glass reinforced plastic (GRP), which is ultraviolet resistant. They will not crack, swell, corrode or colour fade, can withstand moderate field abuse and will return upright after vehicle and livestock impacts.

Strong, maintenance free, life long. Fast and easy to install, no excavation. Light weight for one man installation.

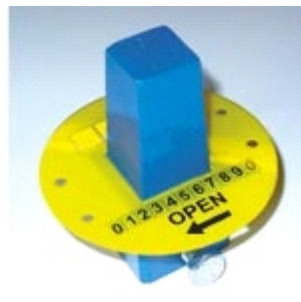

Custom Signs

We can create a custom Gas Valve sign to meet your exact requirements. Any message, any colour and any logo, including customised numbers, letters and blanks.

Valve Tagging Systems

We supply a range of valve tagging systems to suit your exact requirements. Including numbers, letters and blanks.

Custom Valve Tagging Systems

We can design and manufacture a complete valve tagging system to suite your exact requirements. Including custom numbers, letters and blanks.
